SMV 24
Specialist Multi-purpose Vessel

scinnovation-global.com
The Specialist Multi-purpose Vessel 24 (SMV 24) has been designed to provide a flexible, multi-role, high performance yet cost-effective solution for conducting operations in support of the offshore and other maritime engineering sectors.

**PRINCIPLE DIMENSIONS**

<table>
<thead>
<tr>
<th>Dimension</th>
<th>Measurement</th>
</tr>
</thead>
<tbody>
<tr>
<td>Length overall</td>
<td>25.7 m</td>
</tr>
<tr>
<td>Load Line Length</td>
<td>23.395 m</td>
</tr>
<tr>
<td>Beam</td>
<td>8 m</td>
</tr>
<tr>
<td>Maximum draft</td>
<td>1.5 m</td>
</tr>
<tr>
<td>Maximum speed</td>
<td>30 kts</td>
</tr>
</tbody>
</table>

**CONSTRUCTION**

Marine grade aluminium with double bottom for damage survivability (bottom raking damage).

**CLASSIFICATIONS**

<table>
<thead>
<tr>
<th>Class</th>
<th>UK MCA SCV Code (MGN 280) Category 1 Also meets individual flag requirements for Sweden, Norway, Denmark, Netherlands and Germany.</th>

The Specialist Multi-purpose Vessel 24 (SMV 24) has been designed to provide a flexible, multi-role, high performance yet cost-effective solution for conducting operations in support of the offshore and other maritime engineering sectors.

**PRINCIPLE DIMENSIONS**
- Length overall: 25.7 m
- Load Line Length: 23.395 m
- Beam: 8 m
- Maximum draft: 1.5 m
- Maximum speed: 30 kts

**CONSTRUCTION**
Marine grade aluminium with double bottom for damage survivability (bottom raking damage).

**CLASSIFICATIONS**
- CLASS: DNV 01HSLC 1A1 HSLC R1 Wind Farm Service 1
- FLAG: UK MCA SCV Code (MGN 280) Category 1
- Also meets individual flag requirements for Sweden, Norway, Denmark, Netherlands and Germany.

**CAPACITY**
- **FUEL**
  - 4 x 3,000 litre tanks
  - Total capacity 12,000 litres
- **WATER**
  - Technicians Only - 790 NM
  - Fully Loaded – 675 NM
  - Range figures are based on engines running at 80% MCR, 2 Gen sets running at 50% and with a fuel reserve of 10%.
- **BLACK WATER**
  - 512 ltr black water tank combined with onboard sewage treatment plant.
  - Treatment plant compliant with MARPOL 73/78 Annex IV Regulations.
- **DECK CARGO**
  - 30,000 kg

**PROPULSION AND PERFORMANCE**
- **MAIN ENGINES**
  - 2 x MAN V12 D2862 LE463 (Medium Duty Rating)
  - EIAPP Tier II Certification
- **POWER**
  - 1400HP / 1,029 kW @ 2100 RPM
- **GEARBOX**
  - 2 x Servogear HD295 Ratio 3.3:1
- **PROPULSION**
  - 2 x Servogear EcoFlow Propulsors
  - Controlable Pitch Propellers, 6 Blades, 1225 mm diameter
- **SPEED**
  - 30 kts (90% MCR full pax no cargo in calm water)
  - 25 kts (90% MCR fully loaded in calm water)
- **GENERATORS**
  - 2 x Beta Marine 35kW
  - 3 phase 400 volt gensets
  - Alternative propulsion and performance solutions can be accommodated to meet specified customer requirements.

**ADDITIONAL VESSEL SPECIFICATION**
- **BRIDGE**
  - Furuno navigation & communication suite with ARPA enabled Radar & ECDIS. Remote Vessel Control Stations.
- **SALOON**
  - Fully equipped galley area with three fold down crew seats. 12 reclining suspension seats with 4-point harnesses and laptop tables.
  - 2 x TVs with complete entertainment system (satellite internet and TV).
  - Full air conditioning system.
- **OTHER FEATURES**
  - Customised bow docking fender system.
  - Anti vibration mounts to isolate saloon from machinery noise and vibration.
  - Dedicated secure storage and changing room for technicians and PPE.
  - Safe operation in Significant Wave Heights of up to 3m.

For further information on the SMV 24 please contact us on: +44 (0) 1404 891777 or visit: scinnovation-global.com
SC Innovation is renowned for taking exciting concepts and developing them into exceptional products. Examples of this are the Specialist Multi-purpose Vessel (SMV 24) and the RNLI Shannon Launch and Recovery System (L&RS).

SC Innovation’s Specialist Multi-purpose Vessel 24 (SMV 24) has been produced in conjunction with our design and build partners and takes a new approach to the support of offshore facilities and operations. In particular, it is compliant with both DNV 1A1 HSLC R1 Windfarm Service 1 and UK MCA SCV Code Category 1. Using a collaborative approach with key partners, we have delivered a highly capable vessel, built to exacting standards and offering a truly revolutionary deck system that gives optimum flexibility of roles. SC Innovation’s patented SMV 24 concept can provide a major contribution to the total logistic support of offshore facilities worldwide.

Located in the South West of England, in the UK’s first Marine Energy Park, SC Innovation is ideally placed to engage with collaborators in renewable energy projects with its dedicated team of design engineers and extensive production facilities. SC Innovation is already engaged in renewable energy projects and is continually extending its capabilities to provide a long term commitment to the support of offshore energy development.

KEY PARTNERS

DESIGN

Incat Crowther is a diversified marine design business with offices in Australia, USA and the UK.

Achieving optimum results in today’s demanding marine environment requires a partnership with a naval architecture firm which adds maximum value to the businesses its serves. Incat Crowther is a medium size naval architecture firm offering a diverse range of solutions for demanding applications, with an emphasis on efficiency, reliability, safety and practicality.

Incat Crowther’s success is founded on the model of ‘Robust Ideas’. The company has a proud history of developing forward thinking concepts on a robust foundation, allowing the company to evolve and offer innovative solutions with best practice engineering, design and client service, consistently delivering optimum results over the long term.

DNV

DNV is one of the world’s leading classification societies, developing rules and standards for ships for more than 140 years. DNV assists its customers within the maritime industry to manage their risks in all phases of a ship’s life, through ship classification, fuel testing and a range of technical business risk, environmental and competency-related services.

It is this worldwide recognised status as a classification leader that resulted in SC Innovation selecting DNV Classification and the DNV Class notation 1A1 HSLC R1 Wind Farm Service 1 for the design and build of the SMV 24.
